

IS YOUR HOME COVID-19 CHRISTMAS ready?

1 Disinfect potential entry points

- Frequently accessed entry points such as door handles or chimney mantels should be wiped down before Santa's visit
- Spread nothing but good Christmas vibes with candy-cane scented disinfectant wipes

2 Stay at least one reindeer's distance away from others

- Mother-in-laws may require up to six reindeers apart in distance
- Small children and Mark Wahlberg are exempt from social distancing rules

3 Leave out hand sanitiser and a contact tracing sign-in sheet

- Milk and cookies should be swapped for hospital grade hand sanitiser and a contact tracing sign-in sheet
- Depending on availability, a decent quality vodka or navy strength gin will be sufficient
